

4:1 HDMI Switch, 18Gbps, 4K/60Hz, CAT6 Output

User Manual

Version 1.0

Thank you for purchasing this product

For optimum performance and safety, please read these instructions carefully before connecting, operating or adjusting this product. Please keep this manual for future reference.

Surge protection device recommended

This product contains sensitive electrical components that may be damaged by electrical spikes, surges, electric shock, lightning strikes, etc. Use of surge protection systems is highly recommended in order to protect and extend the life of your equipment.

1.0 Introduction

This compact switch allows four sources (1 x Type-C, 1 x VGA, 2 x HDMI) to be switched to 1 x HDMI output and 1 x CAT6 (HDBaseT) output simultaneously, the CAT6 transmission distance is 70m@1080P and 40m@4K. The switch supports analogue and digital audio embedding and de-embedding for local amplifier or speaker connections, along with a separate microphone input embedded on any input.

Controls include front panel buttons with LCD display, RS232, Infrared and Ethernet via a web portal.

This switch is ideal for presentation systems in corporate and educational environments.

2.0 Features

- 4 x HDMI inputs to 4 HDMI outputs
- Supports 18Gbps
- 4K/60Hz, YCbCr 4:4:4
- HDMI 2.0, HDCP 2.2
- Advanced EDID
- Downscale from 4K ↔ 1080P
- Supports HDR, HDR10+, HLD, Dolby Vision
- LPCM 7.1, Dolby True HD™, DTS HD Master Audio
- De-Embedded Analogue and Digital Audio
- ARC (audio return channel)
- Control: Front panel, IR control, RS232 and TCP/IP Web GUI

3.0 Package contents

1. 1 x Main Unit (SC03.4200)
2. 1 x Power Adaptor 24V/1A
3. 1 x IR Remote
4. 2 x IR Transmitter Cable
5. 3 x IR Receiver Cable
6. 1 x CAT6 (HDBaseT) Receiver
7. User Manual

4.0 Specifications

Connectivity

Inputs: 2 x HDMI Type A, 19-Pin Female, 1 x Type-C, 1 x VGA

PC Audio Input: 1 x 3.5mm Stereo Jack Socket

HDMI Audio Input: 1 x 3.5mm Stereo Jack Socket

Output: 1 x HDMI Type A, 19-Pin Female, 1 x RJ45 CAT6 (HDBaseT)

Digital Audio Output: 1 x Coaxial RCA Phono Socket

Analogue Audio Output: 1 x 3.5mm Stereo Jack Socket

IR Input: 1 x 3.5mm Jack Socket

IR Output: 1 x 3.5mm Jack Socket

Microphone Input: 1 x 3-Pin Phoenix Terminal

RS232: 1 x 3-Pin Phoenix Terminal

Ethernet: 1 x RJ45 Data Socket

IR External: 1 x 3.5mm Jack Socket

Power: 1 x DC Jack

Signal

Signal Input/Output: HDMI

Standards: HDMI 2.0, HDCP 2.2/1.4

Bandwidth: 18Gbps

Video Resolutions: 4K/60Hz 4:4:4, 4K/30Hz / 1080p / 1080i / 720p / 576p / 480p

Colour Space: RGB/YCbCr 4:4:4, YCbCr 4:2:2, YUV 4:2:0, HDR10

Colour Depth: 8/10/12-bit

HDMI Audio: PCM2.0/5.1CH, Dolby Digital, DTS

Coaxial Audio: PCM2.0, Dolby Digital / Plus, DTS 2.0/5.1

Analogue Audio: PCM 2.0CH

Infra-Red: Wide Bandwidth, Frequency 30KHz to 56KHz (940nm)

Power

Type: AC to DC Mains Adaptor

Input: 100~240V AC 50/60Hz

Output: Transmitter 24V/1A

Consumption: 16.5 Watts

Environment

Operating Temperature: -5° to 40°C

Storage Temperature: -10° to 60°C

Operating Humidity: 5 to 90% RH (no condensation)

Dimensions: (W) 235 x (D) 137 x (H) 39

Weight: 1.175g

Colour: Black

ESD: Human Body - +/-8kV, (air gap discharge) & +/-4kV (contact discharge)

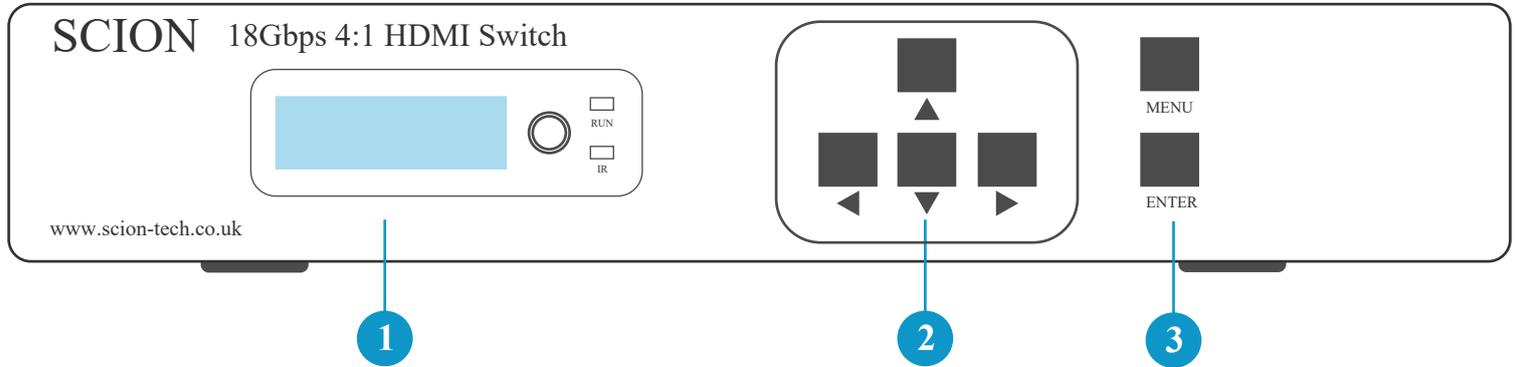

Safety and Emissions: CE, FCC, RoHS

Cable Lengths: CAT6 Output: 70m@1080P, 40m@4K, HDMI 15m@1080P, 6m@4K

Note: Premium High Speed HDMI cables are required to achieve these results.

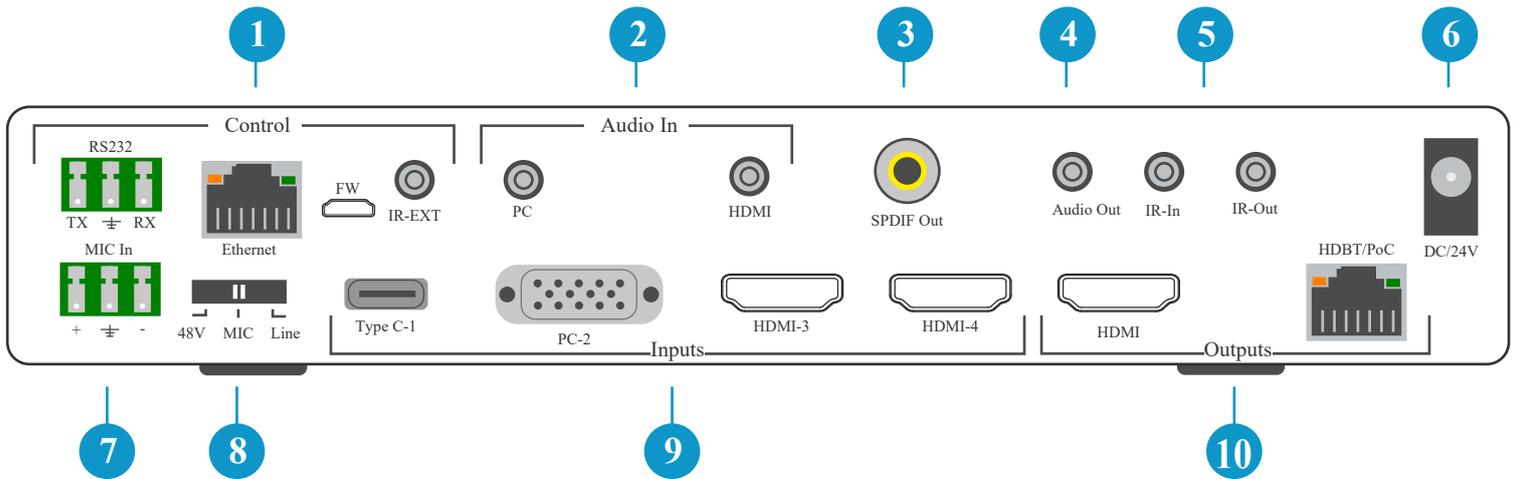

5.0 Panel Control & Connections

5.1 Front Panel

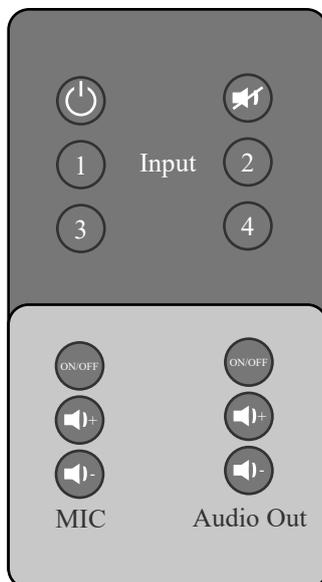

Number	Name	Function / Description
1	LCD	Switch status and function display
2	Function Button	Up, Down, Left and Right
3	Function Button	Menu and Enter
4	Left Button	Selects options in the sub-menu, microphone volume and analogue output volume
5	Right Button	
6	Up Button	Selects options in the sub-menu
7	Down Button	
8	Enter	Enter the sub-menu and return to previous screen
9	Menu	Display on and return to main menu

5.2 Rear Panel

Number	Name	Function / Description
1	Control	RS232 Pass-Through, RS232 Control, Ethernet Web Browser, Firmware Update and IR-External.
2	Audio In	PC: Audio for VGA input only. HDMI: Analogue PCM2.0 audio embedded.
3	Digital Audio	SPDIF De-Embedded audio output (Dolby, DTS, Max 5.1CH)
4	Analogue Audio	Audio output PCM2.0
5	Infra Red	IR Pass-Through to HDBaseT Receiver
6	DC/24V	Power input
7	Microphone	MIC input for embedding in Type-C, VGA and HDMI
8	MIC Switch	Selects the input for embedding microphone
9	Inputs	Video inputs: (1) Type-C, (2) VGA, (3) HDMI, (4) HDMI
10	Outputs	HDMI and CAT6 (HDBaseT)

6.0 IR Remote

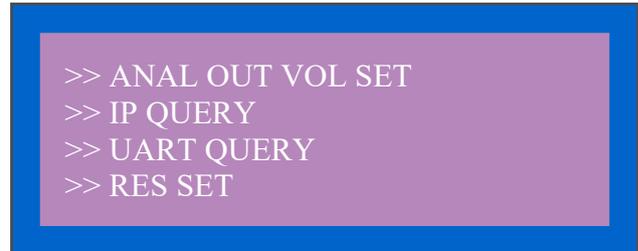

1. Standby
2. Mute
3. Video input (1) Type C-1, (2) PC2-VGA, (3) HDMI-3, (4) HDMI-4
4. MIC in (ON/OFF) / Volume Control
5. Analogue audio out (ON/OFF) Volume Control

7.0 LCD Menu

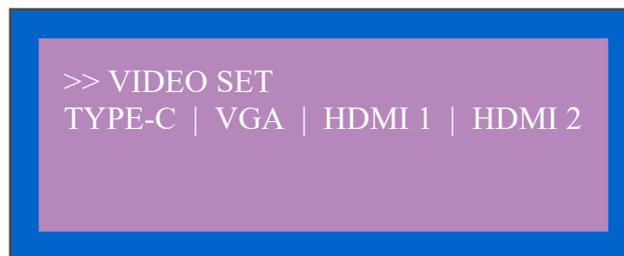

Menu functions include Video Set, Audio Set, EDID Set, MIC input Volume Set, Analogue Output Volume Set, IP Query, UART Query, Reset.

Press any button to activate the LCD screen, if no action is taken the screen turns off after 20 seconds.

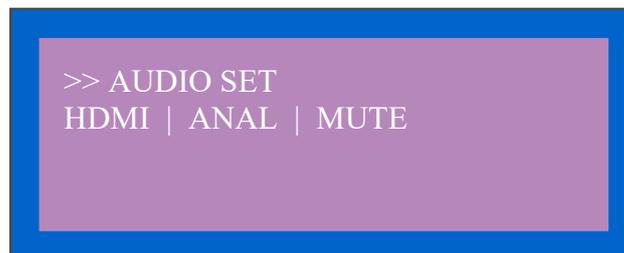

7.1 Video Set

Select “VIDEO SET” and press the “ENTER” to confirm. Press “LEFT/RIGHT” arrow buttons to select the current input signal. Press the “ENTER” button again to return to the main menu.

7.2 Audio Set

Select “AUDIO SET” and press the “ENTER” to confirm. Press “LEFT/RIGHT” arrow buttons to select the current input signal. Press the “ENTER” button again to return to the main menu.

7.3 EDID Set

Select “EDID SET” and press the “ENTER” to confirm. Press “LEFT/RIGHT” arrow buttons to select the current input signal. Press the “ENTER” button again to return to the main menu. Supports 4K/60 (Default), 1080p (Default), Copy HDMI and Copy HDBaseT.

A screenshot of a menu displayed on a screen. The menu is titled ">> EDID SET" and lists four options: "4K60 1080P", "COPY HDMI", and "COPY HDBT". The text is white on a purple background, which is itself inside a blue border.

```
>> EDID SET
4K60 1080P
COPY HDMI  COPY HDBT
```

7.4 Microphone input volume Set

Select “MIC IN VOL SET” and press the “ENTER” to confirm. Press “LEFT/RIGHT” arrow buttons to increase or decrease the volume. Press the “ENTER” button again to return to the main menu.

A screenshot of a menu displayed on a screen. The menu is titled ">> MIC IN VOL SET" and shows the volume level as "VOL: - 5 +". The text is white on a purple background, which is itself inside a blue border.

```
>> MIC IN VOL SET
VOL: - 5 +
```

7.5 Analogue audio volume Set

Select “ANAL OUT VOL SET” and press the “ENTER” to confirm. Press “LEFT/RIGHT” arrow buttons to increase or decrease the volume. Press the “ENTER” button again to return to the main menu.

A screenshot of a menu displayed on a screen. The menu is titled ">> ANAL OUT VOL SET" and shows the volume level as "VOL: - 5 +". The text is white on a purple background, which is itself inside a blue border.

```
>> ANAL OUT VOL SET
VOL: - 5 +
```

7.6 IP QUERY

The default IP address is 192.168.1.168, DHCP is off. Use the “LEFT/RIGHT” buttons to select DHCP status, then press “ENTER” to confirm to back up one level.

```
>> IP QUERY  
192 . 168 . 1 . 168  
DHCP: OFF  ON
```

7.7 UART QUERY

Supported baudrate are 9600, 19200, 38400, 57600, 115200 (Default). The baudrate must be changed using PC tool or web browser, this is not supported using front panel controls.

```
>> UART QUERY  
UART 1  BAUD: 115200
```

7.8 SYSTEM RESET

Press the “ENTER” button to reset the switch to factory default settings.

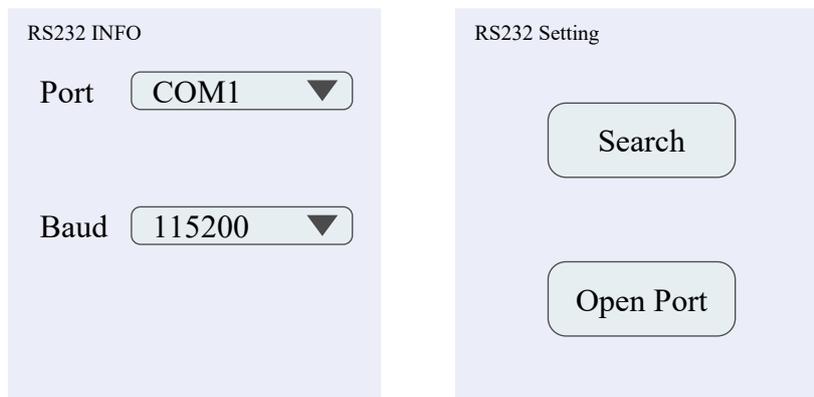

```
>> SYSTEM RESET  
Please Press Enter Key.....
```

8.0 PC Application

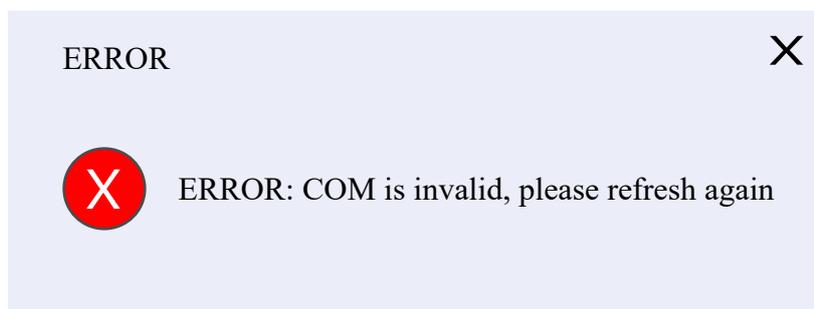

- Install the “swe01b_4-Input HDMI Switcher.exe” software on your computer.
- Connect the switch to your computer using the USB to RS232 cable supplied.
- Press the “Search” button to find the correct COM port then click “Open Port”.

8.1 COM Port Setup

- Communication port settings: Open the application software and select the correct port and baudrate, these should be the same as those shown within the LCD menu.

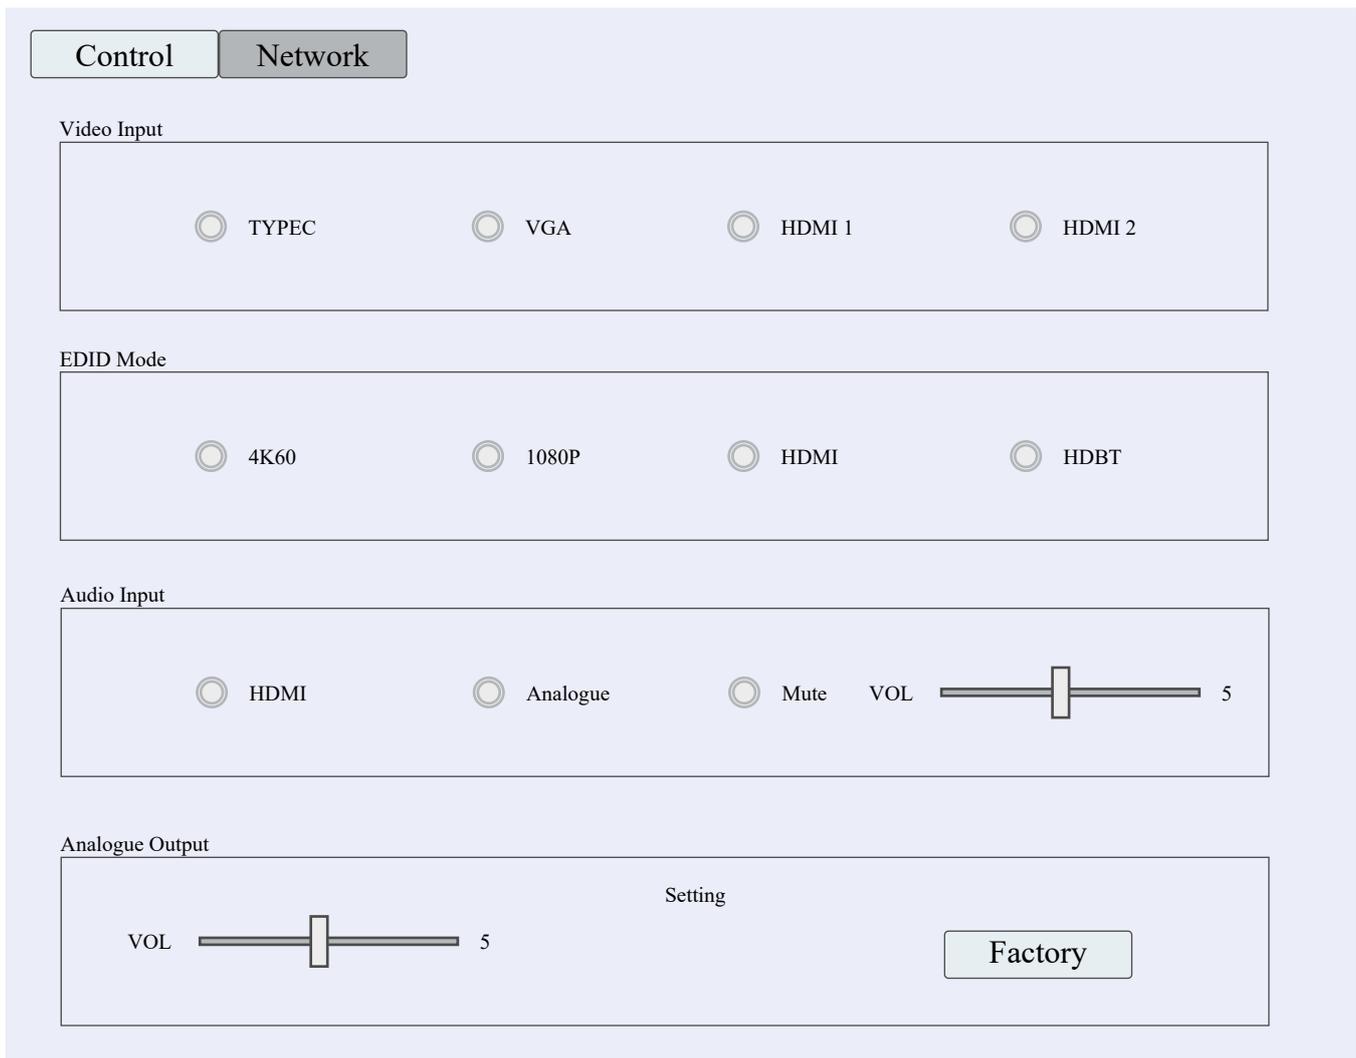

- Click “Search” to refresh the communications port.
- “Open Port”: in disconnect status, “Close Port”: connected to device.
- The following popup error means there is no communication, please refresh and try again.

- When connected the following information will be displayed.

8.2 Control Interface

- 1) Video Input: Switch Type-C, VGA, HDMI (1) and HDMI (2).
- 2) EDID:
 - 4K60: Default EDID 4K@60Hz
 - 1080P: Default EDID 1080P@60Hz
 - HDMI: Copy HDMI out EDID for Input (Copy Mode)
 - HDBT: Copy HDBT out EDID for Input (Copy Mode)
- 3) Audio Input: Click to select HDMI, Analogue, Mute option (HDMI: audio for Type C/VGA/HDMI, Analogue: audio embedded/MIC in)
- 4) MIC: Volume control, the number (5) shows the current volume. Note: Microphone can only be adjusted when “Analogue” audio is selected.
- 5) Analogue Output: Volume control, the number (5) shows the current volume setting. Note: Does not work when muted.
- 6) Factory Reset.

Note: Please set the audio input to “Analogue” using Panel, PC Application or Web GUI when using the MIC in/analogue audio embedded function.

8.3 Network Interface

Control **Network**

Network INFO

MAC Address:

IP Address:

Net Mask Address:

Gateway Address:

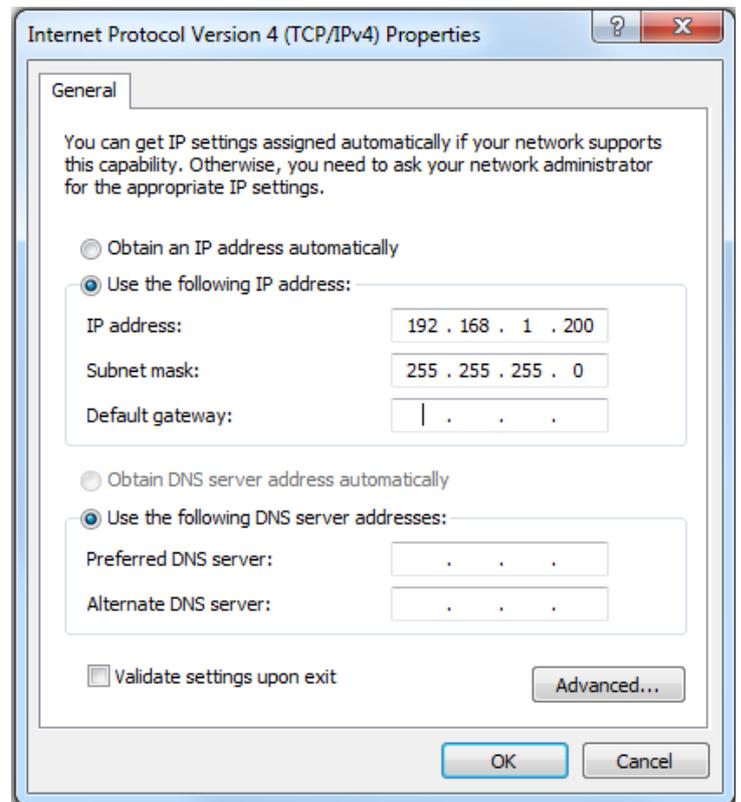

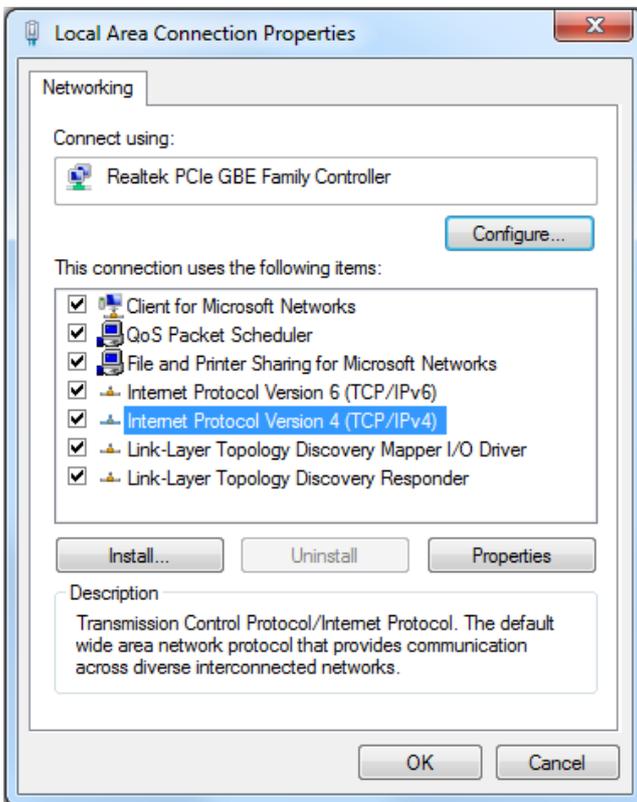

DHCP

9.0 Web Browser GUI

To access the Web interface enter the matrix IP address in to your web browser address bar. The default IP address is 192.168.1.168

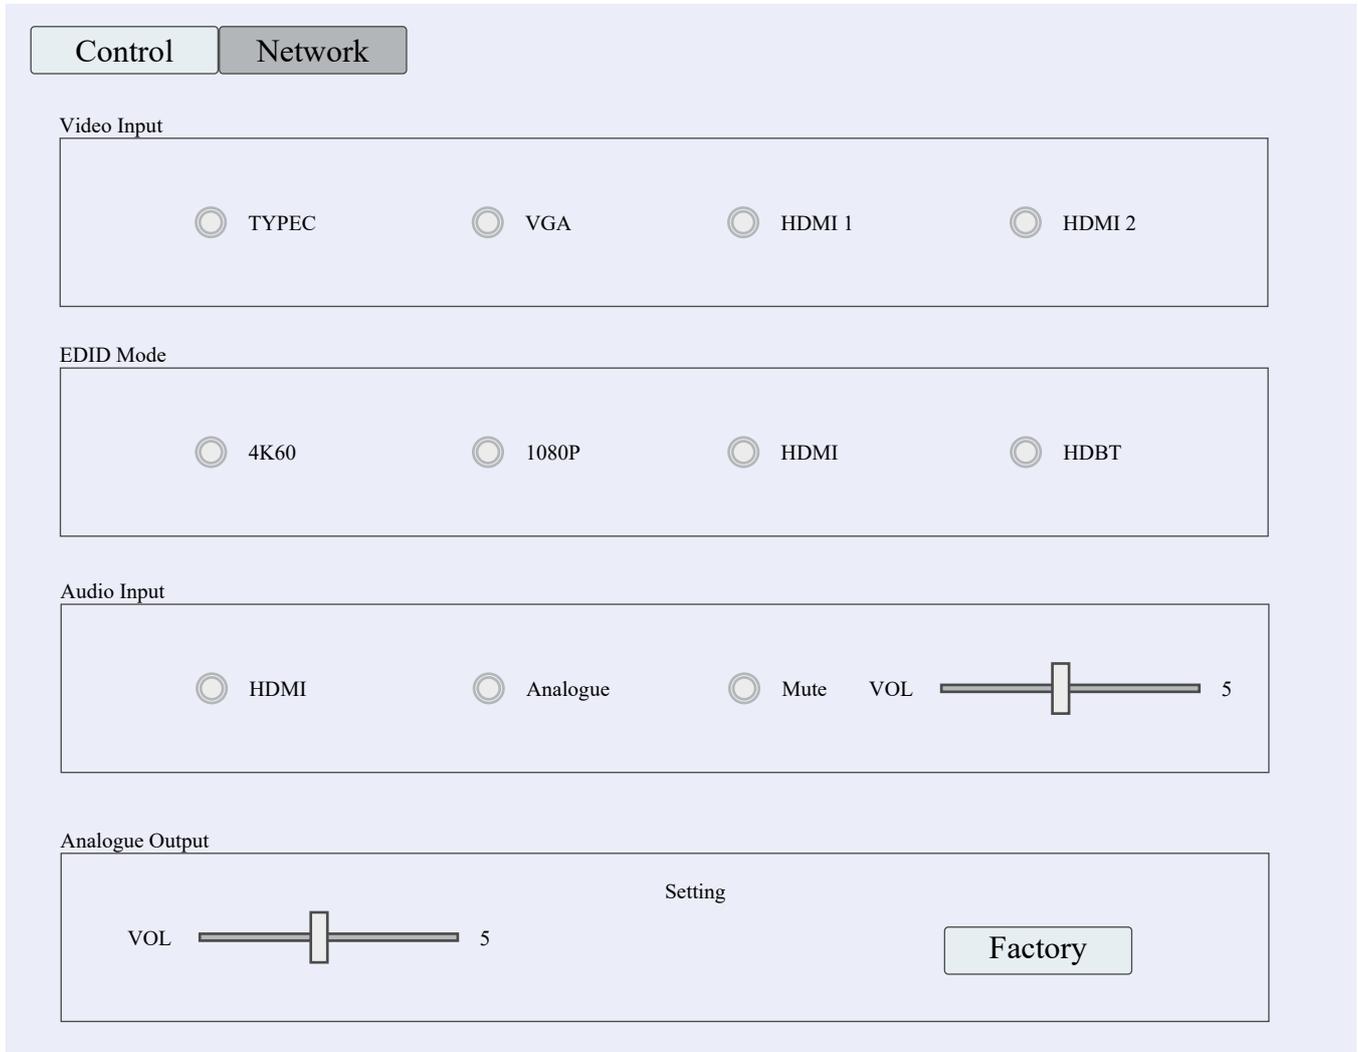

Note: If the IP address is unknown, use the RS232 interface command in section (r ip addr!) to discover the current IP settings or reset the matrix to it's factory default settings.

Set you computers IP address the the same network segment as the matrix. For example: IP address 192.168.1.200 and subnet mask: 255.255.255.0. Avoid using the matrix default settings when entering the computers IP address.

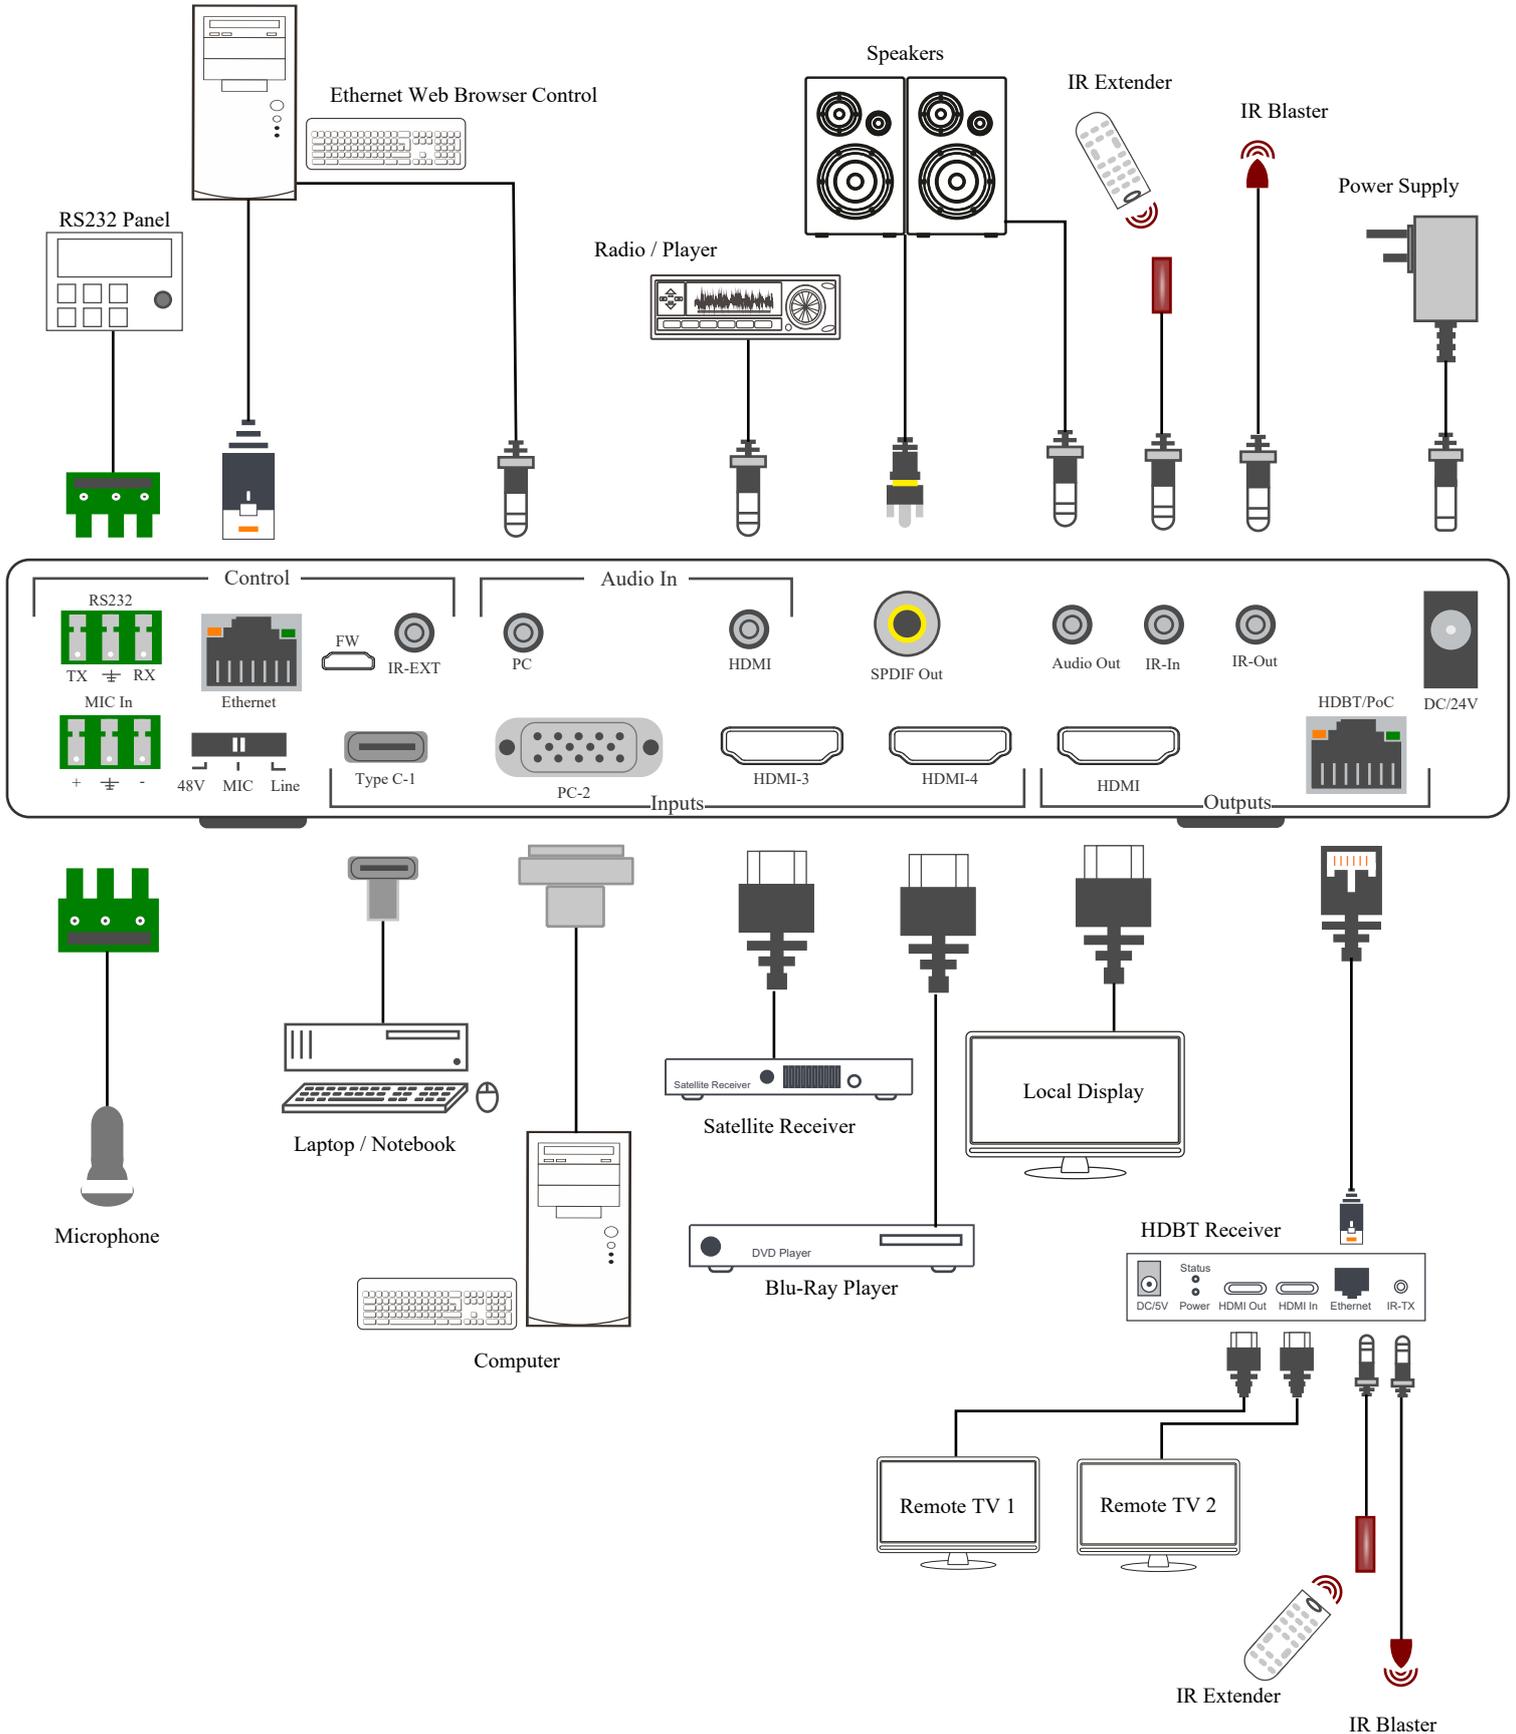

10.0 Web Browser GUI Control

1. Enter the default IP Address (192.168.1.168) into the Web Browser
2. The following GUI will appear. Please see PC Application section for details.

11.0 Application Drawing

12.0 Maintenance

Clean this unit with a soft, dry cloth. Never use alcohol, paint thinner or benzene to clean these devices.

Servicing

Damage requiring service: This product should be serviced by a qualified service engineer if:

- The DC power cord or AC adaptor has been damaged.
- Objects or liquids have entered the housings.
- The product has been exposed to rain.
- The product has stopped working or shows signs of significant change in operating performance or function.
- The unit has been dropped or severely damaged externally.

Servicing personnel: Do not attempt to service the product beyond that described in these instructions. Refer all other servicing to authorised servicing personnel.

Replacement parts: When parts need replacing ensure the service engineer uses parts specified by the manufacturer or parts that have the same characteristics as the original parts. Unauthorised substitutes may result in fire, electric shock or other hazards.

Safety check: After a repair or service, ask the engineer to perform safety checks to confirm the product is in proper working condition.

Warranty

If your product does not work properly because of a defect in materials or workmanship, our Company (referred to as "the warrantor") will , for the length of the period indicated as below, (Parts and labour 2 years) which starts with the date of original purchase ("Limited Warranty period"), at its option either (a) repair your product with new or refurbished parts, or (b) replace it with a new or a refurbished product. The decision to repair or replace will be made by the warrantor.

During the "Labour" Limited Warranty period there will be no charge for labour. During the "Parts" warranty period, there will be no charge for parts. You must mail-in your product during the warranty period. This Limited Warranty is extended only to the original purchaser and only covers product purchased as new. A purchase receipt or other proof of original purchase date is required for Limited Warranty service.

Returning a Product

When shipping the unit carefully pack and send it prepaid, adequately insured and preferably in the original carton. Include a letter detailing the complaint and provide a day time phone number and/or email address where you can be reached.

Limited warranty limits and exclusions

This Limited Warranty ONLY COVERS failures due to defects in materials or workmanship, and DOES NOT COVER normal wear and tear or cosmetic damage. The Limited Warranty ALSO DOES NOT COVER damages which occurred in shipment, or failures which are caused by products not supplied by warrantor, or failures which result from accidents, misuse, abuse, neglect, mishandling, misapplication, alteration, faulty installation, set-up adjustments, maladjustment of consumer controls, improper maintenance, power line surge, lightning damage, modification, or service by anyone other than a Factory Service centre or other authorized service engineer, or damage that is attributable to acts of God.

THERE ARE NO EXPRESS WARRANTIES EXCEPT AS LISTED UNDER "LIMITED WARRANTY COVERAGE". THE WARRANTOR IS NOT LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS WARRANTY. (As examples, this excludes damages for lost time, cost of having someone remove or re-install an installed unit if applicable, travel to and from the service, loss of or damage to media or images, data or other recorded content. The items listed are not exclusive, but are for illustration only).

PARTS AND SERVICE, WHICH ARE NOT COVERED BY THIS LIMITED WARRANTY, ARE YOUR RESPONSIBILITY. This returns policy does not affect your legal rights. Details of your legal rights are available from Trading Standards or Citizens Advice Consumer Service.
